INDEX TO VOLUME 40 (1993)

AUTHORS—ARTICLES, EDITORIALS, AND FEATURES

Ahearn, Hally 40(2)226
Alciere, Rose Mary 40(2)262
Alschuler, Liora 40(2)210, 40(3)376
Altom, Tim 40(3)456
Anderson, Shirley 40(2)202
Andrews, Brad 40(1)103
Barchilon, Marian G. 40(1)16
Barclay, Rebecca O. 40(1)62
Becker, Walter L. 40(2)230
Bigelow, Tom 40(1)20
Bist, Gary 40(4)715
Bowes, John E. 40(4)705
Branscomb, E. Sanford 40(1)97
Brooks, Randy M. 40(3)422
Chadwick, Glori 40(4)715
Conklin, James 40(1)89
Cook, Ken Jr. 40(1)14
Davidson, W. J. 40(3)403
Dixon, Ken 40(4)715
Dutra, Andrea M. 40(2)258
Elliott, Scott D. 40(4)705
Ensign, Chet 40(3)387
Fawcett, Heather 40(3)379
Gilmore, Elizabeth 40(2)210
Glushko, Robert J. 40(3)394
Greenly, Robert 40(1)42
Grice, Roger A. 40(3)429
Gross, Mark 40(2)219
Harcy, Glen A. 40(1)49
Horton, William 40(1)26; 40(4)682
Howard, Tharon W. 40(3)438
Johnson, David 40(1)49
Keene, Michael L. 40(1)62
Kennedy, John M. 40(1)62
Kershner, Ken 40(3)394
Keyes, Elizabeth 40(4)638
Kohl, John R. 40(1)62
Leonard, David C. 40(1)74
Lewis, Marcia K. 40(1)100
Marlow, Eugene 40(3)453
Nash, Elizabeth 40(2)260
Nawn, Kathy 40(4)716
O'Malley, Penelope Grenoble 40(4)619
Pinelli, Thomas E. 40(1)62
Ridgway, Lenore S. 40(3)429
Rockley, Ann 40(3)383
Schriver, Karen 40(2)239
Search, Patricia 40(3)414; 40(4)629
Shelton, S. M. (Marty) 40(4)617; 40(4)655; 40(4)694
Skelton, Terry 40(2)202
Smith, Frank R. 40(3)372; 40(4)614
Smudde, Peter M. 40(1)35
Steve, Mike 40(1)20
Teter, Marti 40(1)49
Verburg, T. Larry 40(3)448
Warren, Thomas L. 40(1)81
Weiss, Edmond H. 40(2)234
Wickliff, Gregory A. 40(3)410
Wiebe, Alwyn F. 40(1)49
Williams, Thomas R. 40(4)669
Wise, Mary R. 40(4)677

SUBJECTS—SHORT TITLES

BIBLIOGRAPHY
Computer graphics, 40(4)629
Information delivery system, 40(4)619
Multimedia, 40(4)694
Quality in document design, 40(2)239
Script design for information film/video, 40(4)655
Using graphics in software documentation, 40(4)677

COMMUNICATION
Changing the language of visual communication, 40(4)629
Electronic communications media, 40(3)453
Impact of language and culture on technical communication in Japan, 40(1)62
Information delivery systems, 40(4)619
Multimedia, 40(4)694
Standards for high-definition television, 40(4)705
The almost universal language: graphics, 40(4)682
Using graphics in software documentation, 40(4)677

COMPUTER DOCUMENTATION
An integrated approach to computer documentation, 40(1)89
Creating a reference manual, 40(2)260
Customer network to review documentation, 40(4)715
Learning from the real world, 40(4)720
The almost universal language: graphics, 40(4)682
Using graphics in software documentation, 40(4)677

DESKTOP/ELECTRONIC PUBLISHING
Getting your data into SGML, 40(2)219
Introducing today's SGML, 40(2)210
Introduction to special section, 40(3)376
New Oxford English Dictionary project, 40(3)379
Ontario Hydro and SGML, 40(3)383
Special section: Standard Generalized Markup Language, 40(2), 40(3)
SGML and the *New Yorker*, 40(2)226
SGML authoring tools for technical communication, 40(3)403
SGML by evolution, 40(3)387
Silicon Graphics' *Iris Insight*, an SGML success story, 40(3)394

DOCUMENT DESIGN
Quality in document design, 40(2)239
Task-training guideline—powerful format for how-to instructional materials, 40(1)49

EDITING
Trademarks—caveat scriptor, 40(1)92

EDUCATION AND TRAINING
Impact of language and culture on technical communication in Japan, 40(1)62
Task-training guideline—powerful format for how-to instructional materials, 40(1)49

FORMAT
How to write a resume, 40(1)42
Task-training guideline—powerful format for how-to instructional materials, 40(1)49
Typography, color, and information structure, 40(4)638

GRAPHICS
Changing the language of visual communication, 40(4)629
HyperGlyphs—using design and language for hypermedia navigation, 40(3)414
The almost universal language: graphics, 40(4)682

Impact of language and culture on technical communication in Japan, 40(1)62

STYLE
Avoiding governmentspeak, 40(2)262
The politics of technical language, 40(3)448
To confine the stellar wind—a statistical romance, 40(2)260
Why we use big words—a historical perspective, 40(3)456

***TECHNICAL COMMUNICATION* JOURNAL**
The journal's peer review process, 40(3)372
Our editorial policy, 40(4)614

TECHNICAL COMMUNICATION PROFESSION
Coping with downsizing as a writing and editing group, 40(1)16
Downsizing technical communication staff—risk to corporate success, 40(1)35
Information delivery systems: Future is here, 40(4)619
Let's do away with manuals before they do away with us, 40(1)26
Professionalism in technical communication, 40(2)202
Special section: Technical communicators and downsizing, 40(1)
Trends and issues in, 40(1)14

TECHNICAL WRITING
Avoiding governmentspeak, 40(2)262
Cognitive writing—creating a reference manual, 40(2)258
How to write a resume, 40(1)42
Task-training guideline—powerful format for instructional materials, 40(1)49
The politics of technical language, 40(3)448
Three approaches to reader analysis, 40(1)81
Trademarks—caveat scriptor, 40(1)92

THEORY
Three approaches to reader analysis, 40(1)81
What's so different about visuals? 40(4)669

USABILITY
Usability and hypermedia—toward a set of usability criteria and measures, 40(3)429

VISUALS
Changing the language of visual communication, 40(4)629
Introduction to special issue, 40(4)617
Information delivery systems, 40(4)619
Multimedia, 40(4)694
Special issue: Visual communication, 40(4)
Standards for high-definition television, 40(4)705
The almost universal language: graphics, 40(4)682
Typography, color, and information structure, 40(4)638
Using graphics in software documentation, 40(4)677

DEPARTMENTS

Book Reviews

The professional writer—guide for advanced technical writing; Strategic communication—the art of making your ideas their ideas; Illustrating for science; Guide to charts and diagrams; Designing pictorial symbols; Pictorial maps; Writing that works—effective communication in business; Technical writing for private industry—A-to-Z of O&M manuals; The art of technical documentation; The fine art of technical writing; Business and managerial communication—new perspectives; Writing successfully in science; Guide to technical editing—discussion, dictionary, and exercises; Technical writing—situations and strategies; Microsoft press computer dictionary, 40(1)112

Signs, genres, and communities in technical communication; Writing and speaking in the technology professions—a practical guide; How to write and publish engineering papers and reports; Technical editing—the practical guide for editors and writers; Technical writing—a reader-centered approach; Rhetoric, innovation, technology—case studies of technical communication in technology transfers; How to start and run a writing & editing business; Technical writer's freelance guide; Basic technical writing; Designing with type; How to write proposals that produce, 40(2)274

Techniques for technical communicators; Perspectives on software documentation—inquiries and innovations, 40(3)464

Writing space: The computer, hypertext, and the history of writing; Indexing from A to Z; Visual communicating; Good style: Writing for science and technology; Editing for the technical professions: How to write regulations and other legal documents in clear English; Successful technical writing: Documentation for business and industry; The copyright book: A practical guide; The ACS Style Guide: A manual for authors and editors; Science and technical writing: A manual of style; Procedure writing: Principles and practice, 40(4)726

The Business of Technical Communication

The business of marketing your business, 40(4)786

Getting personal about the business, 40(1)157

Service beyond the call . . ., 40(2)325

What happens to our work? 40(3)548

Communication Management

For the good of what profession? 40(4)768

Managing a disaster, 40(1)170

We must start now, 40(2)340

What every successful manager knows, 40(3)536

Correspondence, 40(1)6; 40(2)190; 40(3)367; 40(4)604

Current Research in Technical Communication

The relationship between language and design in mechanical engineering—some preliminary observations, 40(1)173

A study of gender and its influence on visual design, 40(3)543

Technology and communication in military R&D, 40(4)771

Uncovering the CYA ("cover your ass") phenomenon in organizational writing—initial findings, 40(2)344

Editorials

The journal's peer review process, 40(3)372

Our editorial policy, 40(4)614

Professionalism in technical communication, 40(2)202

Trends and issues in technical communication, 40(1)14

The Friendly Editor

The CCCC, 40(4)752

Edit yourself into a job, 40(3)492

Let the authors have their words, 40(1)127

The STC proposal project, 40(2)292

From Print to Pictures

The script—a means to an end, 40(3)512

Visualization: The mind's eye, 40(4)746

International Technical Communication

Driving the project workflow with style, 40(1)166

It's a small world after all; English in Japan—it takes form; Let 'em eat cake, speak English, and think as I do, 40(3)499

Government, globalization, and translation; An East-West perspective on the future of automotive publishing, 40(4)762

Understanding foreign language user requirements in business—a model; International technical communication—beyond translation, localization, 40(2)334

Marketing Writing for Technical Products

Brochures & data sheets, 40(3)550

Getting started, 40(1)130

Styles and techniques, 40(2)310

What is your message? 40(4)778

Models for Technical Communicators
Technical communication in the less-than-ideal organization, 40(3)556
Who is taking science to the people? 40(2)354

Nancy's Wordsmithy
Eliminate jargon? Dream on! 40(3)522
One potato, two potato, 49(1)128
Still lost between one and two, 40(2)291

New Media Literacy
Do new media need technical writers? Do technical writers need new media? 49(4)794

Practicalities
Communicating across the country or across town—planning and producing effective teleconference meetings, 40(1)160
Creating the corporate style guide—process and product, 40(3)505
Making your hypertext interface usable, 40(4)754
Parallel product and document development, 40(2)328

The Quest for Quality
Baseline—benchmark—breakthrough, 40(3)504
The paradigm of jazz, 40(2)332
Together we can, 40(1)164
The voice of the customer, 40(4)774

Recent and Relevant, 40(1)105; 40(2)266; 40(3)460; 40(4)723

Status of Technical Manuals and Specifications, 40(1)176; 40(2)350; 40(3)553; 40(4)788

A Teaching Tip
Extending the usefulness of a computer classroom by using a team approach, 40(2)289
Learning E-mail skills, 40(4)766
A multi-use analogy, 40(1)124
Using *WordPerfect 5.1* to format a manual, 40(3)478

Technology Reviews
Meet *Professor MAC*, 40(1)168
Prewriting stacks; MacJournalism—style and grammar tutor, 40(3)510
The sounds of English, 40(2)349

Term Talk
And or (and/or?) *Or?* 40(1)132
Extend your confidence limits in writing about statistics, 40(4)742
Things I've never understood, 40(3)476
Which way is up? 40(2)296

Theory and the Profession
Engineering and Aristotle—a dialogue with Norm Augustine, 40(2)313
Ethics for technical communication—a framework for the profession, 40(3)524
A model as the basis for a taxonomy of technical communication, 40(1)53
Rhetoric and the collaborative nature of technical communication, 40(4)781

Visual Literacy
The definitive statement on syntax statements, 40(2)321
Dump the dumb screen dumps, 40(1)146
Figures of image: Aristotle and the design of icons and hypermedia, 40(3)495

The Wired Word: Designing Online Documentation
Horton's laws of online documentation, 40(2)318
A quick (and not too dirty) fix for online documentation, 40(3)517
Ten steps for selecting software, 40(1)148

Writer Worksheets
Design for staff: part I, 40(1)135
Design for staff: part II, 40(2)298
Design for staff: part III, 40(3)481
New lamps for old, 40(4)789

SOCIETY NEWS

40th Annual STC Conference, 40(3)560
Abstracts of conference papers, 40(3)577
President's plans, 1993-1994, 40(3)576
President's report, 1992-1993, 40(3)568
